LESSON NINETEEN

DOCTOR 3

DISEASES

Stomachache - headache

I'm having difficulty breathing

Flu - prescription – prescribe – asthma – cough – faint

This medicine helps to prevent **fainting**

Whenever I work out for a long time I feel **dizzy**.

Toothache – heart disease – injury –

This medicine side effect includes **nausea**

ASKING ABOUT TAKING MEDICINE

How many **pills** should I take?

How much **syrup** should I use?

How often should I take them?

When should I take them?

For how long should I take them?

Are there any **side effects** to this medicine?

Should I avoid doing anything while taking this medicine?

At the pharmacy

I've come to **collect** cream that my doctor has **prescribed**.

Can I see your **prescription** please?

Here it is / there you go.

Are there any special **instructions** about this cream?

You need to **apply** it twice a day.

Do I need a prescription to buy this?

UK LIFE INFO

Excuse me, could you help me to find the right lotion?

Sure. What's it for?

I got a really bad rash from being in the sun for too long.

Is it itchy?

I would recommend this product.

Will it help to get rid of the rash?

Your medication is in the bag. Do you need anything else?

No, thanks.
